

Titchfield Gardeners' Club Data Protection Policy

Due to new General Data Protection Regulations we wish to clarify our Policy with regard to the use of your data.

We understand that your personal data is private and take this seriously.

All members will be asked for their name, address, email address and telephone number on applying for membership to the Club. Such information is already collected for existing members. These records are kept by our Secretary only for the smooth running of the Club and for the benefit of the members. Most communications to members are now by email but in some instances (such as the organisation of outings, social functions..) other Committee members and our Mailchimp administrator, may need such information and will ask the Secretary for the information where necessary.

We will not share your personal data with any third party organisations nor with any members of the Club, apart from the Committee and our Mailchimp administrator, unless you have given your express consent to this.

Membership information will be deleted by the Secretary in the event of a member's resignation or three months after the renewal date for membership whichever is the later date.
